An Odd Coincidence. The remarkable story told by ex-Dis-

trict Attorney John W. Johnson, of Lancaster county, is not likely to have many

parallels. About three years before the war, acting on the great Greeley's advice, young Johnson got as far west as Illinois. His cousins, Frank Price and Kersey H. Fell, had preceded him there from Chester county and were well established.
They put some legal matters in his hands that needed attention, and April 30, 1857, he found himself at Decatur, then enough of a railroad centre to be the intersecting point of two Illinois roads. Connections were faulty, and Johnson found that he would have to lay over the greater part of the day until the next train came along. Presently he not treed another young man who, it afterward transpired, was in a precisely similar position. They fell to talking and walking together. As a pair of scales stood near by they jumped on and were weighed; each tipped the beam at 145 pounds. This excited some surprise, as the one seamed taller than the other. They then measured their heights, each stood five feet nine inches. Still more remarkable, however, was the coincidence that now came out, that the concidence that now came out, that the one was born on the same day of the identical year on which the other was ushered into the world.

"Well, now," said the surprised young lawyer, "what's your name!"
"John W Johnson," came the reply; "and what's yours""
"John W. Johnson."

"John W. Johnson."
So it was that these two young strangers, accidentally thrown together, four dithat their respective weights, heights, ages and names were identical. The Lancaster John W. Johnson vonches for the truth of this remarkable series of coincidences. He has never seen the other John W. Johnson from that day to this. -Philadelphia Inquirer

Cars Run Like Thunder

Lincoln Monitor One day last week a gentleman from the rural districts of Macon county drove into Decatur and met with an adventure which has fur who have heard the story. The gentle-man in question happened to have occasion to turn his buggy around on the street our track, and happened to select as the proper place to turn a spot in front of an electric cur which was standand on the track. As he was deliberately making the turn the conductor rang his bell vigorous!, and shouted to the gentleman to get out of the way as the car was:ready to start. The visitor looked around but saw no reason why the car should move and continued to take his time. The conductor got out of pa-tience, and starting up his car took a wheel off the buggy. Later on, in hav-ing the damage repaired at a blackemith shop the gentleman explained how the accident occurred. He said "Why, I looked all around and I seed than wasan't a hoss nor a mule in ten rod of the keer, and, do you know, they tell me they run 'em with the same gol durned stuff they make thunder of !"

They Crowd the State Capital and Shout Reform.

It is eaid that a Pennsylvania travele who was passing along the highway, when hailed by a boy with the inquiry "Say, Mister, is that the same horse you rode last year," replied, as he gave his horse a cut with the whip, "No, it's not the same boss, but it's the same whup." And so it is with the Democratic clans now gathered in Springfield to nominate a state ticket and "resoloot." While they may not ride the same hose, they will use the same "whop," which is, after all, the mouve power of the Pemocratic horse. In the convention one sees the credulous son of too, who innocently trusts the Democratic party for relief from both imaginary and real grievances, which he iticians—to vote for their convictions and never gets. On the other hand, there is also present the slick Mike McDonald, who, with immaculate and jeweled shirt front, is the real convention. It is he who sets the note for the unsophisticated while they sing "Democracy and reform." Mr. Wilson, of Olney, is the choice of the Democratic farmers for State Freasurer, and, until a few days ago, and good reason for the belief that he would receive the nomination. His star declined, however, when the "boys" trotted out Fitzgerald, of Cheugo, for that office. The Cook county Democracy, at its convention, endorsed Palmer, Fitzgerald and reform. This means that "Billy" Fitzgeruld must be given the nomination for State Treasurer to please the "boys" It is necessary that the boys be pleased that John M. Palmer may be able to carry the state, even if the rural districts that are for Wilson must be put off with a resolution declaring their deoforable condition. This resolution will other which will be adopted, for the her husband, the late Major Gen. Since then however the same shares have been purchased at under 80. Free t. alers have not mentioned the late des , notwithstanding the fact that they e' m to be prompted by honest motives.

WE are pleased to notice that the Democrats of Macon county have it last exhibited anflicient backbone to declare and Farmer John M. Palmer for United in favor of the public school system. That party has been a long time coming up to this point, but, having finally propresumed that the sons of toll will remulgated an opinion on that important question we may at any day ressonably expect it to endorse the older sentiment that "cleanliness is next to godliness."

LIFTING COAL. Operations Resumed at the Deca

tur Coal Mines.

Although there has been no settlemen of the coal miners' trouble in Decatur, the Coal Company have resumed operations with a force of twenty men which will be increased as rapidly as men present themselves for employment. The company lifted 44 carloads yesterday and will make the output 50 carloads to-day. For nearly a month the mines have been inactive. It is now the purpose of the company to resume business. The miners who quit work, and they were about 250 in number, are still idle. It is reported that at least 25 of them have no personal knowledge as to why they quit, except that they were ordered to do so Ard now, while they are anxious to go to work and earn wages, they are relucting to do so, as they fear the jeers and insults of those who prefer idleness to labor. It is the purpose of the company to give every new man permanent em ployment who proves himself competent

The striking miners at Peoria have practically acknowledged their defeat Yesterday several of the strikers applied for work at the mines More men are willing to work than can now secure employment Lack of financial support has hastened the end of the strike. It is conceded by the miners that the strike failure at Peoris leaves, them no hope of gaining at other places, as Peoria was the center of the competitive field

Well known phrases are sometimes so sad, so mysterious in the minds of little people who are making their first acquaintance with grief. A child whose dear grandpa had been taken suddenly ill was one morning asked by a neighbor if he were any worse.

"I saw the doctor hurrying over to your house a little while ago," said the good but thoughtless woman, "and I thought your grandpa might be worse."
"He isn't that," said the little thing,

her lips quivering. "He's dead."

V cases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

"About two years ago, after sufering for nearly two years from rhenmatio gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking aver's Sarsaparilla. I then decided to take a trial of this medicine, and took regularly for eight months. I am assel to say that it effected a cointe cure, and that I have since had no un of the disease."
